

Energy and Food Allergy Information

Updated: June.4.2018

Information on energy (kcal)
 - This is vendor information or totals based on the food standards composition table.
 - There may be slight differences for food prepared in-store. We appreciate your understanding on this matter.
 - Energy values contain all items such as sauces and toppings.
 - Energy values for set menus do not include drink items.
 - Please refer to each applicable item on the drink menu for energy values.

About the food allergenic substances table
 - The table lists ingredients for all items that contain allergenic substances.
 - ● indicates that an item is used as an ingredient.
 - Empty cells indicate that the item is not used as an ingredient, however that the item could possibly be mixed in with other menu items during the production process or in-store preparation process.

* Information on menu items are updated as needed, so please be sure to check them regularly.

* For menu items that do not have any information listed, please contact Pronto directly.
